DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/9/2009 has been entered.

Acknowledgments

2. This office action is in response to the reply filed on 11/9/2009 and 10/7/2009.
3. In the reply, the applicant cancelled claims 2-3 and amended claim 1.
4. Thus, claims 1, 4-36 remain pending for examination.

Citation of Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO 892 Form.

Allowance

5. Claims 1, 4-36 are allowed.
6. The following is an examiner's statement of reasons for allowance:
7. The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The prior art does not disclose or render obvious the combination as claimed specifically including a safety arrangement for a medical needle held by a support and having a sleeve having an initial position covering a

needle, a retracted position exposing the needle, and a protecting position covering the needle that is in the same position as the initial position relative to the needle tip, a tubular blocking member having a non-blocking position in coaxial relationship with the sleeve and whereby the sleeve slides with respect to the blocking member to the sleeve's retracted position, and a control means maintaining the blocking member during sliding movement, but during movement of the sleeve from its retracted position to its protecting position, the control means releases the blocking member to a blocking position where the axis of the blocking member lies at an acute angle to the sleeve and the blocking member is disposed between the support and the sleeve to prevent the sleeve from moving away from its protected position in combination with the other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
